

With two of the most highly-realistic simulation environments of their kind, 11 years of experience, and the ability to engineer and adapt medical simulation mannequins to over 350 scenarios based on actual claims, the Center for Medical Simulation provides one of the best patient care simulation experiences in the world.

All CMS courses address both the clinical and behavioral aspects of performance, focusing on crisis management and error prevention. Course topics include leadership, teamwork, effective communication, resource management, and performance enhancement. Active learning in the CMS real-world settings enhances participants' retention and ability to apply target skills and behaviors. Many participants find their CMS training to be the single most valuable and meaningful learning experience of their careers, and many find our confidential environment to be more comfortable and accessible than simulation at their home institutions.

“OUTSTANDING COURSE. I LEARNED A LOT ABOUT MYSELF AND HOW I CAN IMPROVE MY PRACTICE.”

“THE BEST EDUCATIONAL EXERCISE PROVIDED IN RESIDENCY THUS FAR.”

“SUPERB RESOURCE. EDUCATIONAL AND ENTERTAINING.”

“USEFUL TO PHYSICIANS AT ALL LEVELS.”

A typical CMS day is filled with experiences in simulated clinical situations, punctuated with debriefings supported by videotaped scenarios. These debriefings with our skilled instructors are the core of the learning experience. They encourage an open and motivational discussion of performance and error, instilling the principles of teamwork in participants' approaches to healthcare.

“EXTREMELY USEFUL AND INSIGHTFUL.”

“THE SIMULATION WILL HELP TREMENDOUSLY
WITH FUTURE PRACTICE”

CMS offers **CUSTOMIZED SIMULATION TRAINING** for a variety of medical specialties (maximum of five participants per team) including, but not limited to:

Anesthesia	Full Day	\$6,250/team or \$1,250/clinician
Labor and delivery	Full Day	\$6,250/team or \$1,250/clinician or \$150 nurse, \$300 midwife
Emergency Medicine	Full Day	\$6,250/team
Radiology	Full Day	\$6,250/team
ICU	Full Day	\$6,250/team
Pain service	Full Day	\$6,250/team
Otorhinolaryngology	Full Day	\$6,250/team
EMS and transport teams	Half-Full Day	\$3,500 - \$5,500/team
Surgical teams	Half Day	\$3,500/team
Code teams	Quarter Day	\$1,500/team

Prices are subject to change. Updates can be found at harvardmedsim.org.
