

PROGRAMS FOR LARGER GROUPS AND CONSULTING SERVICES:

For Various Audiences

Videoconferences

2 - 3 hours

CMS offers live, interactive videoconferences of simulated clinical situations that demonstrate and explore teamwork and crisis management. While not a substitute for actual training, this can be a great way to expose a larger group to the principles, benefits and possibilities of simulation, while additionally reviewing models of strong teamwork. Scenarios are customized to audience interests and background.

A typical program combines:

- A live simulation on a large screen with audience participation
- Debriefing of the event depicted
- A didactic presentation about simulation
- One on-site CMS moderator as well as a clinical team at the CMS facility to perform the simulation.

Fee: \$10,000 + expenses

Speaking

CMS staff and faculty are often invited to speak at conferences and other gatherings. Their passion, knowledge and experience are palpable and inspiring.

Fee: \$1,500 - \$2,500/day, per person + expenses

Consulting

Drawing on our years of experience, CMS is happy to help your organization address specific challenges around simulation and setting up your own simulation program.

Fee: \$2,500 - \$3,500/day, per person + expenses
