

Crisis Management Training for Anesthesiologists

Qualifies for MOCA® Part IV Credit

Join the thousands of Anesthesiologists since 1993 who have practiced managing critical events at CMS

The Center for Medical Simulation (CMS) is offering intensive one day workshops in Anesthesia Crisis Resource Management (ACRM) for all anesthesiologists that will meet the MOCA® Part IV simulation requirement. These workshops have been approved for 7.5 AMA PRA Category 1 continuing education credits and are also eligible for Risk Management Study.

CMS Anesthesia Crisis Resource Management workshops are designed for those anesthesiologists seeking to practice their skills in managing critical events. The overall focus of these workshops is on learning the type of teamwork and generic skills needed when managing any kind of infrequent but critical event in anesthesia and opportunities will be made available to learn skills in managing certain specific events. During the workshops, participants requiring MOCA® certification will each have a turn as the primary anesthesiologist caring for the patient.

CMS ACRM WORKSHOP

Tuition: \$1,500 per attendee

SCHEDULE – February through June, 2011

February 7, 10, 14, 24, 28

March 7, 10, 14, 21, 24

April 4, 7, 11, 25

May 9, 16, 21, 26

June 2, 6

Additional Saturday and weekday courses may be scheduled pending demand. CMS welcome entire teams from your group by special arrangement. To register and to learn more about CMS' Anesthesia Crisis Management Training course, go to:

<http://www.harvardmedsim.org/clinical-training-anesthesia.php>,

or contact CMS at info@harvardmedsim.org.

The Center for Medical Simulation is an endorsed program in the American Society of Anesthesiologists' Simulation Education Network, and has ensured that this workshop complies with the American Board of Anesthesiologists' Maintenance of Certification in Anesthesia MOCA® Part IV simulation requirements. MOCA® is a registered certification mark of The American Board of Anesthesiology, Inc.

Founded in 1993, CMS was one of the world's first healthcare simulation centers and continues to be a global leader in the field.

At CMS the focus is on communication, collaboration, and crisis management in order to develop skills and teamwork behaviors that are best learned actively under realistic conditions. Since it first opened in 1993, CMS has run over two thousand courses and trained thousands of participants using its innovative and challenging scenarios.
