

DISCOVER - UNITE - LEARN
SPRING SUN CONFERENCE

April 18-20, 2017 - Paradise Point Resort - San Diego, CA

Learn from Experts in Simulation

Simulation User Network Conferences bring together others just like you – those who understand the value of simulation and strive to use it to its fullest potential.

Opening Session

"Light's, Simulation, Action! – Let's Save a Life!"

Presented by a team from the University of San Francisco and Stanford University School of Medicine

This simulation scenario will feature an interprofessional hospital-based team working together to care for a patient who is acutely ill and septic in the Intensive Care Unit. Be Prepared! Members of the audience may be solicited to participate in the scenario.

General Session

"Build it and they will come. Creating Sustainability in Your Simulation Program"

Presented by KT Waxman of the California Simulation Alliance

Learn how to create a business plan, identify key stakeholders and obtain leadership buy-in by proving Return on Investment.

Closing Session

"Dueling Synapses: Dilemmas in Simulation-enhanced Interprofessional Education"

Presented by Drs. Dan Raemer and Janice Palaganas of the Center for Medical Simulation

The aged Dr. Dan Raemer and the spunky youthful Dr. Janice Palaganas, the hilarious simulation expert duo, will challenge each other and urge you to think about these questions and strategies in creating rich simulation-enhanced IPE.
