

Guidelines for Maintenance of Certification

Revised June 2012

Criteria

1. Each instructor is required to spend a minimum of 3 days per year teaching at CMS and must be the lead debriefer for a minimum of 6 scenarios per year.
2. At the two year mark, each certified instructor is required to have a certified instructor colleague observe a debriefing and give them feedback. An attestation must be recorded by the instructor maintaining their certification that this was done.
3. It is strongly recommended that the faculty members participate in continuing instructor education such as IMSH courses, IMS Graduate courses, peer-group debriefing reflection and rating groups on an on-going basis.
